

Firemaster 4 Classic

DESCRIPTION and USE

A unique design, sewn full inseam with curved fingers and box end finger tips, made with a PYROHIDE leather outer shell, a Porelle PTFE glove insert and a Kovenex® thermal barrier. The style has printed PYROHIDE leather palm and thumb patch. It is finished with a NOMEX®/KEVLAR® wristlet cuff. Designed to offer the wearer a high degree of protection as well as dexterity during structural fire-fighting duties, this new model incorporates over 15 years of fire glove design and innovation.

LEATHER SPECIFICATIONS

PYROHIDE is a world class top-grade grain cowhide leather developed specifically for fire-fighters and used by numerous departments worldwide. It offers resistance to fire, heat, water, salt water, liquid chemicals (sulphuric acid, hydrochloric acid, caustic soda, ethanol etc) and Man Made Mineral Fibers (MMMFs). It is highly tactile in wet and dry conditions and dries soft following normal use. Manufactured in the UK by Southcombe Brothers using a proprietary formula, it is exclusive to the Firemaster range of gloves. PYROHIDE is the first line of defense for fire-fighters.

INTERLINING

Pathogen resistant Bi component PTFE 3 layer laminated glove membrane by Porelle offering liquid penetration resistance against blood and body fluids, as well as superior performance unmatched by any other waterproof and breathable barrier fabric currently on the market. Performing 5 times better than competitive polyurethane-based products. Made in the UK.

LINING

Kovenex® offers an inherently flame-resistant blend of non-chemically treated performance fibers that provide outstanding heat-blocking qualities. Kovenex® performance fabrics are flexible, durable and offer cut and sharps protection in addition to protection from heat and flame. No other thermal barrier on the market provides as much heat protection while maintaining a high level of dexterity.

CUFF

Undyed knitted NOMEX®/KEVLAR® wristlet cuff with elastane plus PYROHIDE leather vein patch on wrist.

THREAD Sewn throughout in NOMEX® and TECHNORA® thread.

Available in
Brown or Lime

- Compliant to NFPA 1971-2018 : Protective Ensembles for Structural Fire Fighting Accredited by Underwriters Laboratories Inc. Certificate No. 20180816-MH6017
- Certified to EN659:2003 + A1:2008 : Protective Gloves for Firefighters by Satra Europe, Certificate No. 2777.13046-01.E00-00
- Full PYROHIDE grain cowhide leather shell
- 3 layer construction to enhance thermal protective properties
- Chemical bond securing lining to membrane to prevent lining inversion
- Over 170 years of glove manufacturing heritage
- Sizes : 3XS, XXS, XS, S, M, L, XL, XXL, 3XL + Bespoke
- Made in U.K.
